Diagram illustrating pointer manipulation:

- Point  $P$  is at the top.
- A horizontal line intersects the vertical line.
- To the right of the intersection is the text  $S.next = L1$ .
- To the left, there is a point  $C$  on a line that branches off to the left.
- Below  $C$ , there is a point  $B$ .
- To the right of  $B$  is the text  $B.T = L2$ .
- Below  $B$ , there is a point  $F$ .
- To the right of  $F$  is the text  $F = L1$ .
- At the bottom, there is a point  $S1$ .
- To the right of  $S1$  is the text  $S1.next = S.next = L1$ .
